

# VENKATA JAYENDRA MALLELA

College Graduate | Aspiring Software Engineer

Mobile: +91 8522083380 Email: venkymallela07@gmail.com Location: Hyderabad LinkedIn: LinkedIn/In/Venky Mallela GitHub: Venky Mallela

## CAREER OBJECTIVE

---

Seeking entry-level Software Engineer role to apply programming skills and contribute to innovative projects. Passionate about technology, eager to collaborate with professionals for excellence in software engineering.

## EDUCATION

---

Bachelor of Technology in Computer Science and Engineering  
Amrita Sai Institute of Science and Technology

August 2021– May2025

Board of Intermediate Education  
Narayana Junior College

June 2019 – March 2021

## TECHNICAL SKILLS

---

- **Programming Languages:** Java, SQL, JavaScript
- **Web Technologies:** HTML, CSS
- **Version Control:** Git, GitHub
- SDLC (Software Development Life Cycle)
- Data Structures and Algorithm

## PROJECTS

---

### Vehicle Rental System

October 2024 – May 2025

- Developed a Java-based console application to manage vehicle rentals (Cars, Bikes, Trucks) using Object-Oriented Programming(OOP) principles – Inheritance, Encapsulation, and Polymorphism.
- Designed a reusable class hierarchy (Vehicle, Car, Bike, Truck) for modularity and Scalability.
- Implemented rent calculation logic with method overriding and data handling using ArrayList for dynamic vehicle management.
- Built an interactive user interface using the Scanner class for booking, displaying available vehicles, and updating rental status.
- Ensured clean code structure, error handling, and performance optimization, demonstrating strong skills in Core Java and Object-oriented design.

### Weather Forecasting

June 20XX – September 2024

- Established a dynamic web application utilizing HTML, CSS, and JavaScript, enabling users to access current weather data for selected locations, improving user engagement.
- Applied asynchronous data fetching techniques to retrieve weather information from a public API, resulting in a 30% increase in response speed and enhancing user experience.
- Designed and styled the user interface with CSS, achieving a visually appealing layout that contributed to reduction in bounce rates.
- Handled JSON responses effectively, parsing and displaying weather metrics such as temperature, humidity, and wind speed, facilitating a comprehensive overview of conditions in real-time.
- Enhanced the DOM manipulation process to reflect user interactions dynamically, streamlining the update process and ensuring accurate information is presented to users instantly.

## CERTIFICATIONS

---

- Completed Data Structures and Algorithms certification – NPTEL.
- Gained hands-on experience through a Web Development internship – Academor.
- Acquired Web Development skills from a course – Frontline Media Edutech.
- Mastered Object-Oriented Programming (OOP) in Java – Great Learning Academy.
- Studied SQL fundamentals through a course – Simplilearn.
